

## Side-Gun Bellow Sprayer

**Bellow-sprayer with a side gun with a distribution range of 45m. Appropriate for spraying greenhouses and crop housings up to a height of 3.5m.**

- Harnessed to a tractor by a quick-harnessing triangle and/or three-points.
- 600L stainless steel tank.
- Suction filter with a separation valve.
- Height meter with a calibration strip.
- Ceramic piston pump Model 73, or, alternatively, Pump 110.
- Operated by a Model 6A motor with over-running.
- Spraying side-gun up to 45m.
- The bellow are controlled by a transmission gear with a selector of two speeds and a neutral gear.
- Gun with ceramic sprinklers.
- The gun may be rotated 360 degrees by a hydraulic piston operated by oil pressure from the tractor.
- The gun is equipped with a pressure regulator with a pressure meter and another port for a handheld spray gun.
- Optional dusting mini bellow for dusting with a 80kg tank.
- Sprayer permitting both spraying and dusting.
- Particularly high work outputs.
